Definitions

NGOs/CSOs

Note: While the DAC Creditor Reporting System uses the term non-governmental organisation (NGO), it can be used synonymously with the term civil society organisation (CSO). This paper uses the term CSO.

A non-governmental organisation (NGO) is any non-profit entity organised on a local, national or international level to pursue shared objectives and ideals, without significant government-controlled participation or representation. NGOs include foundations, co-operative societies, trade unions, and ad-hoc entities set up to collect funds for a specific purpose. NGO umbrella organisations and NGO networks are also included. NGOs should only be classified as international when:

- either there is an international coordinating body facilitating the work of its members on the international level or the NGO has an extensive network of country/regional offices in the field; and the NGO has internationally diversified sources of revenue.

Two forms of official development assistance for NGOs/CSOs

DAC members report their official spending on NGOs/CSOs to the OECD creditor reporting system in two ways:

- **Aid to CSOs:** Core contributions and contributions to programmes. These aid funds are programmed by the CSOs.
- **Aid channelled through CSOs:** funds channelled through CSOs and other private bodies to implement donor-initiated projects (earmarked funding)
Memo: Aid by CSOs i.e. private funds collected by CSOs are also presented for information.

Types of NGOs/CSOs receiving ODA

The OECD's Creditor Reporting System (CRS) for official development assistance allows members to report ODA flows to and through three types of civil society organisations, called non-governmental organisations (NGOs) in the CRS:

- 1) **Donor-country based NGOs** (Channel Code 22000): an NGO organised at the national level, based and operated either in the donor country or another donor country.
- 2) **International NGOs** (Channel Code 21000): an NGO organised on an international level. Some INGOs may act as umbrella organisations with affiliations in several donor and/or recipient countries.
- 3) **Developing country-based NGOs** (Channel Code 23000): an NGO organised at the national level, based and operated in a developing (ODA-eligible country).

Some flows are reported as **Undefined** (Channel Code 20000): NGOs in this category are reported by donor under the code 20000 in the DAC questionnaire by donors.

More information about the terms and channel codes in the CRS and DAC Statistics is available here: <http://oe.cd/dac-crs-code-lists>

The Gender Equality Policy Marker

An activity can target gender equality as a "**principal objective**" or a "**significant objective**":

- **Principal** means gender equality was an explicit objective of the activity and fundamental in its design.
- **Significant** means gender equality was an important, but secondary, objective of the activity. Not targeted means that the activity was screened for promoting gender equality, but was not found to have targeted it.

ODA Allocations to and through CSOs

2022-2023

All DAC Members

CSOs are playing a major role in the framework of sustainable development, namely for improving economic, social and political conditions in developing countries.

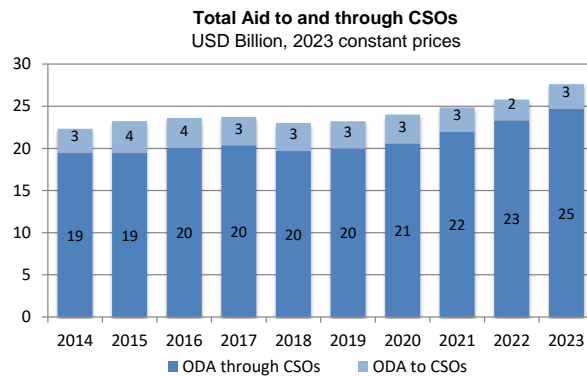

An activity is characterized as aid to CSOs when the core contributions and pooled programmes and funds are programmed by the CSOs and include contributions to finance the CSOs projects. An activity is characterized as aid through CSOs when funds are channelled through CSOs and other private bodies to implement donor-initiated projects.

Note: This paper presents the most up-to-date official data (2023) on the flows of official development assistance (ODA) to and through CSOs. It also identifies trends emerging from a comparative analysis of the aid that DAC members provide to CSOs between 2014 and 2023.
